Moles Class

Please complete as many of these as you would like and bring us your wonderful creations to celebrate in school or post a photo in your portfolio in Class Dojo.

Make a list of at least 10 things you would need to take on a polar adventure and 10 things you would need to survive in the desert. Are there any similarities or differences? Why? Think about where you would sleep, what you would eat and what you would need to find your way around	Create a poem about flowers, trees or nature and then illustrate it. Compose your own song or rap about how wonderful plants are! 	Can you make a picture of plants using things you can find at home? You could use pasta, recycling materials or leaves from your garden. 	Sketch a picture of your favourite tree, flower, fruit or vegetable. See how many photographs you can take of different types of plants – flowers in your garden or the local park or wildflowers you spot on a walk.	 Research information about how planting flowers can help us to save bees and then create an information poster to share with others.
Create an acrostic poem about penguins or other South polar animals and then illustrate it. Can you find a book or a poem about African/Polar animals or explorers? Please bring it to school to share with the class.	Cut out some squares, triangles and other shapes and build your own snowflake. 	Can you research a traditional African recipe and recreate it at home?	Make an African or South Pole animal from recycling items that you can find at home.	Decorate a cake or cupcakes to look like an African animal.
